

## Lockers

Securabike Economy Range is supplied with standard hasp and staple that allows cyclists to use their own U lock or padlock. All other models come with three point locking system with T handle as standard. Securabike lockers can be integrated with Electronic Locking System at an additional cost. Please contact sales for more information.

### Recommended options

#### HSL

Hasp and staple – allows the cyclist to use their own U locks or padlock

#### VRTH

Vandal-resistant T handle – spring-loaded handle locates flush when not being used, to minimise vandalism

#### MKL

Master keying – recommended for multiple locker installations to provide improved locker management and security

#### MHH

Metal hanging hooks – for helmets and apparel

#### LVPI

Ventilation panels – provides air movement and also allows inspection to ensure lockers are in use, and being used correctly

### Electronic Locking System

Securabike has developed an electronic locking system for its range of lockers, cages and compounds. The system is designed to provide greater utilisation of the lockers while increasing security and minimising management costs.

### Management Plan

Securabike's many years' experience in supplying and maintaining bicycle lockers has highlighted the need to develop a management plan to ensure the best possible utilisation of the lockers, what security should be provided and what the cyclist needs to provide. Additionally, Securabike can advise on what service and maintenance needs are required to maximise the life expectancy of the lockers.

### Finish

Lockers are supplied standard in a galvanised steel finish. Powder coating, in a range of colours, is available at extra cost.
